This two day workshop will explore best practices teaching Arabic language learners in the U.S. Topics will include:

- World Readiness Standards for Learning Languages and the integration of the 5Cs in instruction.
- Elements of a thematic-based curriculum following the Understanding By Design (UBD) three stages model.
- The integrating of culture, content, and language, and using authentic materials for instruction and assessment meeting the needs of different proficiency levels.

Participants who complete the workshop will receive a variety of teaching materials including children's books and stories to enrich their classroom library.

The workshop is free and a light lunch will be provided. Pending approval, 10 SCECH credits will be offered. To register, fill out the online application form by scanning the QR code or visiting [asia.msu.edu](http://asia.msu.edu) and going to Teacher Workshops under the Outreach tab.
