

THE MEKONG, CHINA, & SOUTHEAST ASIAN TRANSITIONS SERIES

In recent decades, people living in the Lower Mekong Region have witnessed major shifts from predominantly subsistence agriculture to industrializing economies, with attendant changes in migration, crop production systems, and major infrastructure (roads, dams, industrial estates). This series of four webinars will explore how communities in the region are experiencing the economic, social, and cultural dislocations of these transformations.

2:00 - 3:30 pm HST | 7:00 - 8:30 pm EST | 7:00 - 8:30 am ICT
